

**REMARKS**

Applicants thank the Examiner for acknowledging the claim for priority under 35 U.S.C. § 119, and receipt of a certified copy of the priority document in this Application's parent, 09/789,666.

Applicants thank the Examiner for considering the references cited with the Information Disclosure Statement filed March 12, 2004.

**Status of the Application**

Claims 1-35 are all the claims pending in the Application, as claims 2-35 are hereby added. Claim 1 stands rejected.

**Claim Objections**

The Examiner has objected to claim 1 due to an alleged informality. Applicants respectfully submit that the Examiner's objection is incorrect, as "a substrate" in line 2 of claim 1 is the first recitation of any "substrate" after the claim preamble. Thus, "a substrate" is proper. Accordingly, withdrawal of the objection is respectfully requested.

**Anticipation Rejection**

The Examiner has rejected claim 1 under 35 U.S.C. § 102(e) as being alternatively anticipated by what he labels “*Applicants Admitted Prior Art*” (hereinafter “*Related Art*”)<sup>1</sup> or by *Suhara* (US 6,108,900; hereinafter “*Suhara*”). This rejection is respectfully traversed.

Applicants respectfully submit that neither the *Related Art* nor *Suhara* teach or suggest any particular ability to provide a “substrate in the same manner when the substrate is a lone discrete substrate or an independent unit substrate consisting of a plurality of discrete substrates.” The *Related Art* is directed only to a substrate for multiple devices, while *Suhara* is only directed to one type of circuit substrate (CS).

Thus, Applicants respectfully submit that independent claim 1 is patentable over the applied references, and respectfully request that the Examiner withdraw this rejection.

**New Claims**

Claims 2-35 are hereby added. Claims 2-35 are fully supported *at least* by FIGS. 8-18 of the instant Application. Claims 2-35 are respectfully submitted to be allowable by virtue of the features recited therein.

---

<sup>1</sup> Applicants note that the instant Application labels this art as “related.” Thus, Applicants do not concede that it is applicable “prior art” to the claims herein.

**Conclusion**

In view of the foregoing, it is respectfully submitted that claims 1-35 are allowable.  
Thus, it is respectfully submitted that the application now is in condition for allowance with all of the claims 1-35.
